OUR MAILER FEATURING NEW PRODUCTS AND OFFERING SIGNIFICANT PRICE SAVINGS

Exciting new product for treating Fungal Nail...

CLEARANAIL is an innovative method of treating fungal nails. Hitting the UK with great success this computer controlled device painlessly drills microscopic holes into the infected nail. The nail is then sprayed with a powerful antifungal on a daily basis by the patient for 2-3 months.

Because of the microscopic holes the active antifungal ingredient is able to permeate the nail and underlying nail bed where the infection is located.

\$4,400.00

PER UNIT

Each unit purchased comes with 5x SUM & Resolve solution sets.

CLEARANAIL is straight forward, safe and painless with fast results.
