FRUIT EXTRACTS- BEAUTY FROM FRUIT

FRUIT EXTRACTS
Beauty from fruit

AHAs or Alpha-Hydroxy Acids, otherwise known as Fruit Acid Peels. These are naturally occurring acids such as Glycolic, Citric and Lactic derived from sugar cane, citrus fruits, grapes and milk.

AHAs are scientifically proven to loosen the bonds holding the external surface layers of dead skin cells together, allowing them to be exfoliated away to reveal new skin below.

AHA Triple Action Facial Cleanser 200ml
